

Have fun BUILDING our
social skills together!

LEGO Group

Little Friends Center for Autism is excited to present a summer session of LEGO Group, run by a certified speech-language pathologist. LEGO Group therapy is a fun, active, and engaging way to enable middle-school (rising 6th, 7th and 8th grade) students to practice social skills, including problem-solving, turn-taking, and conversation skills in a natural environment. Our group will have between 4 and 8 participants and run for five weeks.

Please call 630.355.6533 for more details or visit our website for registration information.
